    - iii. The remainder of the field will be scored from the previous lap, except for the cars involved in the incident, they will tag the last scored lap
    - iv. Weather, curfew, or track conditions can also cause a yellow/checkered
  - II. Red/Checkered
    - i. Same as yellow/checkered, however, the incident is more severe and cars need to stop immediately and follow normal "closed" red flag procedures, the race is over
  - III. In an event where the A-Main race is stopped before its posted distance, it will be deemed an official race if more than half the distance has been completed
    - i. If a race is stopped prior to that point, one half of the points and pay for that event will be based on the position at the time the race is stopped with the other half allocated equally among all A-Main cars.
- m. If a race is made up due to a rain out the lineup will be filled as was before, if a driver change is done the position goes to the car not the driver, if a driver change is made then that car will start at the rear of the field

**7. Conduct**

- a. Any driver who stops his car on the track to protest or initiate an argument will be disqualified.

- c. Blatant incidents of rough driving will be subject to penalty, disqualification and/or suspension.
- d. Anyone who destroys MOWA or race track property, abuses or threatens MOWA officials, and/or enters the scoring tower to debate a scoring decision is subject to penalty, disqualification and/or suspension.
- e. If a protest is needed or a rule needs reviewed, you must submit it to the Competition Director and that rule will be brought to the rule committee’s attention, but it will not be changed that night, unless it is a safety rule, any other rule will be reviewed for following year

**8. Spirit of the Rule** – These rules are intended to create fair competition among members. The overriding goal of MOWA is to encourage participation in MOWA events without unnecessarily punishing or disqualifying participants. All reasonable efforts will be made to find a way to allow participation without creating a situation that is unfair to others. The preferred method of enforcement is a warning and agreement for corrective action prior to the next MOWA event. MOWA officials will periodically check compliance with these rules as time and opportunity permit. By entering a car in a MOWA event, a driver represents that to the best of his knowledge his car conforms to these rules. While the rules are intended to be interpreted and enforced in a manner to encourage participation to the extent possible, any blatant disregard for a MOWA rule will not be tolerated.
